GLOVES x2	NOTEBOOK
BOOTS	RACE SCHEDULE
EARPLUGS	TRACK MAP
RAGS	LICENSE
GLASS CLEANER	SUNGLASSES / HAT
EXTENSION CORDS	SENSE OF HUMOUR

Taken from YCRS: The last thing I see far too often: Riders forgetting that **it's supposed to be fun!** I'm fortunate beyond belief. I get to ride motorcycles for fun. I have a family that also loves motorcycles and I even get to help make other people better riders along with the amazing group of people I get to work with at YCRS. I'm never going to get paid to race motorcycles professionally, but I have the opportunity to get paid every time I swing my leg over the bike. My paycheck is a grin that goes ear to ear, a worn-out set of tires, and a lifetime of stories to tell.

Far too often I see people struggling, not having fun, or simply taking this whole thing too seriously. Remember: It's supposed to be fun, and if it's not, then figure out why and fix it.
